FILM FOOL.

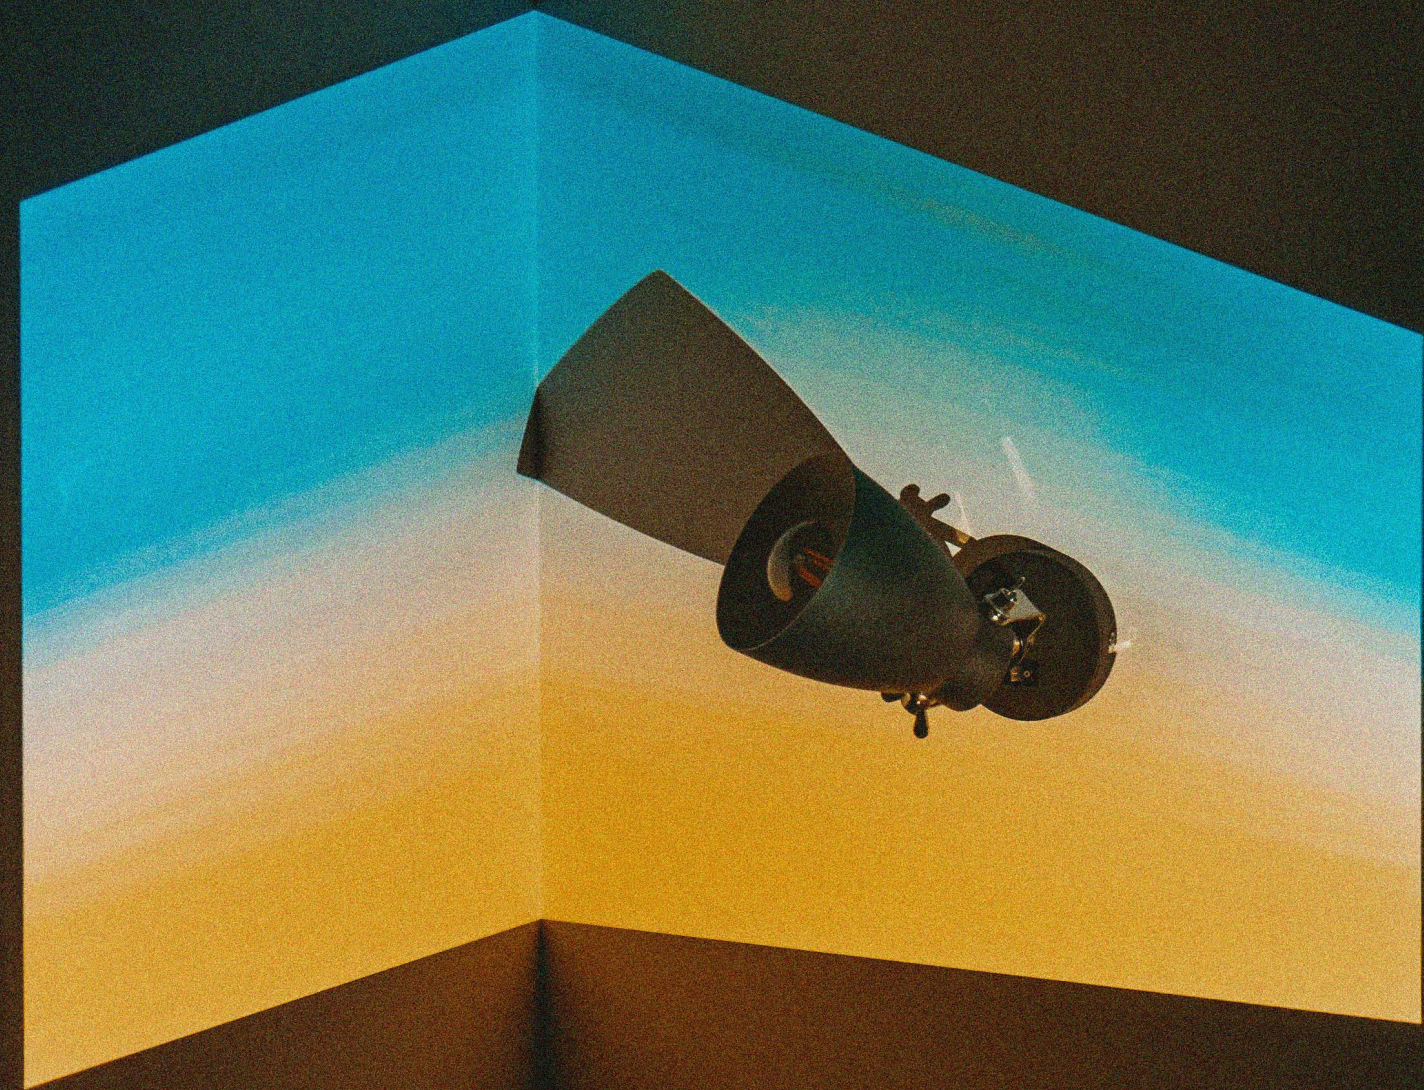

BY GAURAV BHATT

WHO ARE _____ WE?

What IMAX is to feature films, FilmFool theatre is to independent cinema.

FilmFool is a purpose-built black box theatre experience designed to elevate the way indie films are watched, tested, and felt. We specialise in giving independent cinema the theatrical experience it deserves, with a 150" colour-calibrated screen, immersive 7.1 Dolby sound, and an intimate audience environment.

FilmFool Theatre was created by a filmmaker who couldn't afford the big screens, yet refused to let his film be compromised on smaller ones. It is a space where quality meets affordability without sacrificing the visual experience. More than just a screening venue, it is a dedicated black box cinema crafted specifically for independent films to be experienced the way cinema is meant to be.

A SPACE BUILT BY A FILMMAKER.
FOR FILMS.

WHY ARE WE _____ DIFFERENT

At FilmFool, we take film screenings seriously.

Before every screening, we conduct:

- Dedicated Tech Check
- Projection Colour Space calibration as to specific film Package.
- Sound Calibration as per the supplied film Package.

Because we believe independent cinema deserves precision — not just a screen and speakers.

TECHNICAL CAPABILITIES

SPECIAL PRICING

SPECIAL PRICING: PARTNERSHIP SLOT

For filmmakers who want to host multiple shows or list their screenings on online booking platforms, we offer a collaborative partnership model.

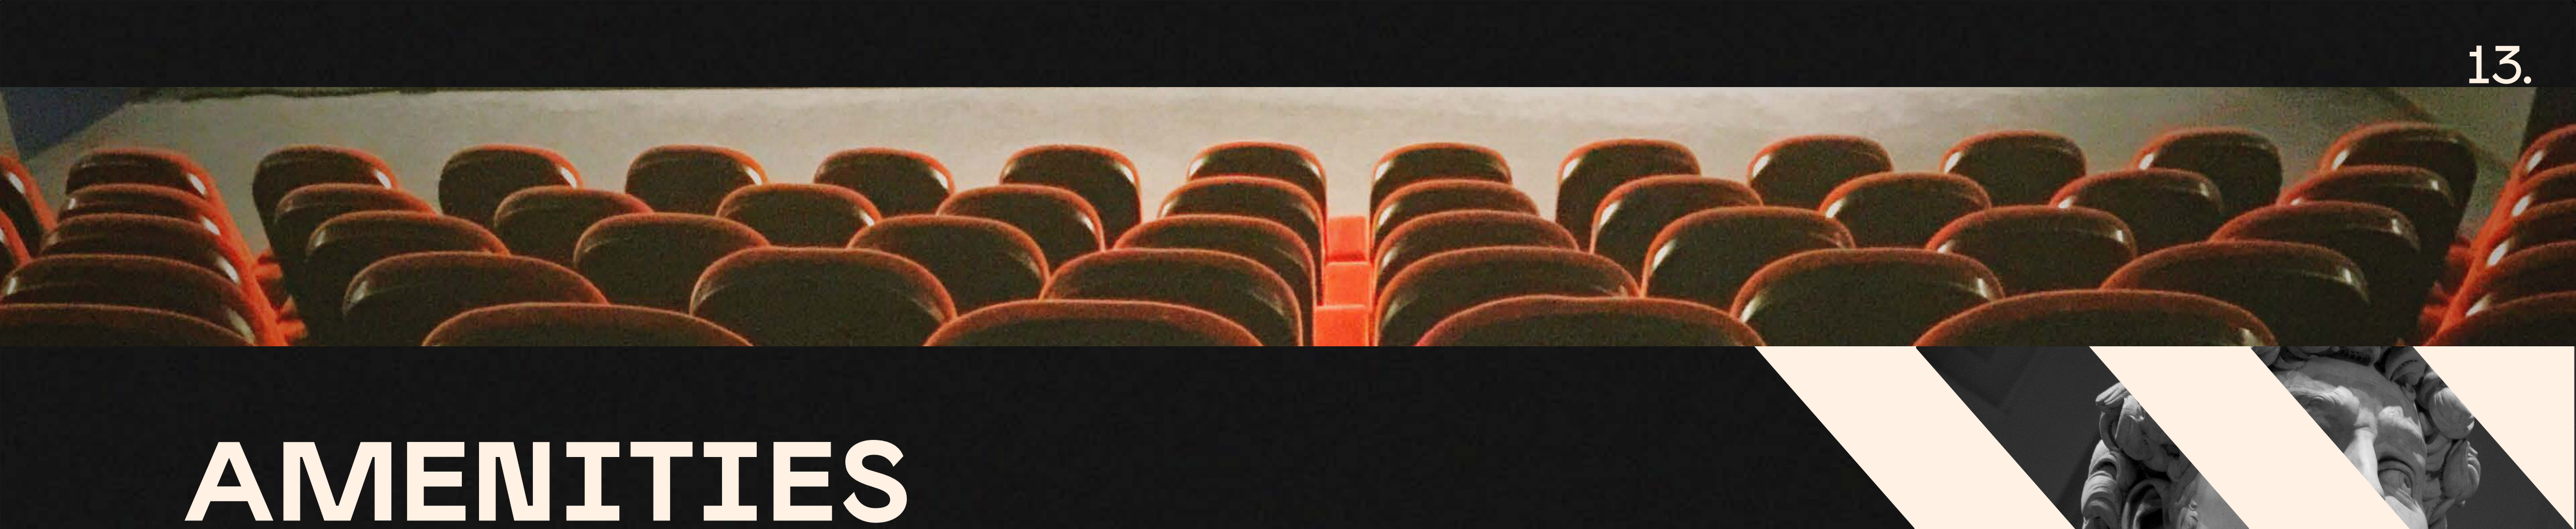

Under this slot, FilmFool provides backend support — including venue, technical setup, and event listing assistance across ticketing platforms. The filmmaker leads audience outreach and ticket sales, while we facilitate the infrastructure and execution required for a seamless screening.

Instead of a fixed rental fee, the screening operates on a revenue-sharing basis, making it a more accessible and aligned model for independent cinema.
